

Our path to success.

Stefan Paul
Chief Executive Officer

I'm delighted to share the new strategy, our KN Vision 2030 and the Roadmap 2026.

It's based on our past success, an evolution of everything that we have done. KN Vision 2030 is "Becoming the most trusted supply chain partner supporting a sustainable future". The Roadmap 2026, the next four years consists of four key cornerstones: The KN Experience, our new Digital Ecosystem, Living ESG and Market Potential.

I'm inviting you to embark on the journey together with us, identifying new opportunities for you, our customers and partners.
